Description

The Case CX290B is a powerful 30-tonne crawler excavator from the B-Series, which stands out for its three selectable working modes (A, H and SP mode), allowing it to be flexibly adapted to a wide range of applications – from grading and standard excavation through to heavy-duty operation. The machine on offer, from the 2009 build year, is in very good overall condition (condition grade 2) and is ready for immediate deployment. With 9,100 operating hours, the excavator shows a normal, well-maintained level of wear appropriate to its age.
