

UMSCHLAGMASCHINEN / WHEELED EXCAVATOR

Sennebogen 825

Available · Location 2512 Oeynhausen, Austria

YEAR	OPERATING HOURS	OPERATING WEIGHT	CONDITION
2010	13.000 h	28.000 kg	2 (very good)

Description

The Sennebogen 825 is a proven mobile material handler from Sennebogen, specifically designed for professional material handling in scrap yards, recycling facilities, and timber handling operations. The machine presented here, manufactured in 2010, is immediately ready for operation in condition grade 2 (good) and comes equipped with a 4-rope orange peel grab, making it directly productive from day one. With an operating weight of 28,000 kg and a powerful Deutz diesel engine, the 825 M covers a wide range of demanding material handling tasks. The load-sensing hydraulic system ensures demand-responsive flow delivery and efficient operation.

Features & Equipment

4-rope orange peel grab
